MOIZ JAWAD
Flutter Developer

moizxahito123@gmail.com | +92 3035414205 | Jan muhammad vandir near sugar mill ranipur

PROFILE SUMMARY

Seeking a challenging role as a flutter developer to leverage my skills in building cross-platform mobile application and contribute to innovative projects. passionate about creating user-friendly, performant and visually appealing apps that meet a client and end-user needs

EDUCATION

QUAID E AWAM UNIVERSITY   *2021 - 2025*
- Undergraduate B.S Computer Science

M.M.M H/SEC SCHOOL   *2021*
- Higher Secondary Certificate Part-II Annual Examination 2021

WORK EXPERIENCE

Flutter Developer | YoungDev   *2024 - PRESENT*
- Develop and implement comprehensive Flutter applications that align with the company's goals and objectives. Ensure code quality and consistency across all development stages and deployment environments.

PROJECTS

Daily Expenses
- Project description: Building your own quiz app app from a scratch is a simple enough yet challenging task for A beginner to flutter

MyShop App
- Project description: To implement this project you will need to know about the concept like state management framesworks. directories and packages these are the basic concepts that you will need to know about this order to implement any flutter project

PROFESSIONAL SKILL

- Flutter
- Dart
- RESTful APIs
- UI/UX Design
- State management
- Cross-platform app dev
- Git version control
- Firebase & local Database

LANGUAGES

- English
- Urdu(Fluent)
- Sindhi

Karachi, Pakistan

✉ moizjawaad@gmail.com   📞 +92 3035414205   in linkedin.com/in/moiz-jawad

SKILLS

- Languages & Tools: Dart, Flutter, Firebase, Supabase, Git, GitHub, REST APIs
- State Management: Provider, Riverpod
- UI/UX: Material Design, Cupertino Widgets, Animations, Lottie, Shimmer Effects, Glassmorphism
- Storage & Backend: Firebase Authentication, Firestore, Supabase Auth/Storage, SQLite
- Development Tools: Android Studio, VS Code, Postman, Figma
- Other: Responsive design, Clean architecture, Modular codebase, MVVM pattern

EXPERIENCE

Intern — Digital Empowerment Network

Flutter Devloper   *jun2025-Present,islamabad,Pk*

- Built multiple Flutter apps (Quiz App, Task Manager, AdMob Monetization App) within weekly deadlines, integrating Firebase Auth, Firestore, SharedPreferences, AdMob, and MVVM architecture. Applied state management, form validation, and animated UI/UX transitions to deliver polished, production-ready applications with real-world monetization features.

PROJECTS

Highway Incident Detection App

Flutter frontend for a live drone-based detection system.

- Integrated Google Maps, real-time controls (start/pause/stop) with Supabase
- Offline-safe command queue and real-time syncing with Supabase detection_status table
- Clean structure using services/, widgets/, state/

Task Manager App

A productivity app to manage daily tasks with priorities, categories, and completion tracking.

- Built entirely with Flutter + Provider + SQLite
- Features include task creation/editing, filters, Lottie animations, shimmer loading
- Used SharedPreferences for login persistence and Firebase for authentication

AdMob Monetization App

AdMob Monetization App – Developed a 5-screen Flutter app implementing Open Ads after splash, Banner Ads on all main screens, and Interstitial Ads before navigation. Integrated Firebase Realtime Database for dynamic ad unit IDs, ensured compliance with Google AdMob policies, and optimized loading dialogs and error handling for a seamless user experience

EDUCATION

*Quaid*UEST Nawabshah,Pakistan

Bachelor of Sci. - Computer Science
Expected Graduation: 2025 Oct

M.M.M H/Sec School Ranipur

Higher Secondary Certificate Part-II Annual
Examination 2021   Percentage: 96%

COURSEWORK

- Flutter UI/UX & Animations
- Dart OOP & Async Programming
- Firebase Auth & Firestore
- App Monetization (AdMob)
- Responsive & Accessible Design
- Git & GitHub Workflows

CERTIFICATIONS

- **Flutter Development Bootcamp – App Brewery / Udemy (2024)**
Comprehensive training on Flutter UI/UX, state management, animations, and API integration.
- **Dart Programming Masterclass – Udemy (2024)**
IIn-depth coverage of Dart fundamentals, OOP concepts, asynchronous programming, and best practices.
- **Firebase for Flutter – Google (2024)**
Hands-on experience with Firebase Authentication, Firestore, Cloud Storage, and push notifications in Flutter apps.
- **Google Mobile Ads Certification – Google (2025)**
Practical knowledge of integrating AdMob for monetization with banner, interstitial, and rewarded ads.

COMMUNITY WORK

Co-Director of Photography, Quaid-e-Awam University Engineer's Social Society – Led event photography and media coverage.

Mentored peers in Flutter & mobile app development basics

ABOUT ME

I'm a Flutter developer passionate about building cross-platform mobile apps that combine clean architecture with modern UI/UX. Skilled in designing intuitive interfaces, managing state efficiently, integrating APIs, and optimizing performance, I focus on creating applications that are visually appealing, user-friendly, and production-ready.

EXPERTISE SKILL

- **Mobile Development**: Flutter, Dart.
- **Backend & Cloud**: Firebase (Auth, Firestore, Storage), Supabase.
- **State Management**: Provider, Riverpod.
- **UI/UX**: Material Design, Cupertino Widgets, Animations, Lottie, Shimmer Effects, Glassmorphism.
- **API Integration**: REST APIs, JSON handling.
- **Monetization**: AdMob (banner & interstitial ads).
- **Version Control**: Git, GitHub.
- **Other**: Performance optimization, debugging, clean architecture.

SOFT SKILLS

- Problem-Solving & Analytical Thinking
- Team Collaboration & Communication
- Time Management & Deadline Handling
- Adaptability & Quick Learning
- Attention to Detail
- Creative UI/UX Thinking
- Agile Development
- Team Collaboration using GitHub

WORK EXPERIENCE

Intern – Digital Empowerment Network
Flutter Developer   Jun 2025 – Sep 2025 , Islamabad, PK

During my internship, I contributed to developing Flutter-based mobile applications with a focus on clean architecture and user experience. Key responsibilities included:

- Built multiple Flutter apps (Quiz App, Task Manager, AdMob Monetization App, Authentication System, Highway Incident Detection App, and Social Learning App) within weekly deadlines, integrating Firebase Auth, Firestore, Supabase, SharedPreferences, AdMob, and MVVM architecture.

- Applied state management, form validation, and animated UI/UX transitions to deliver polished, production-ready applications with real-world monetization and scalable features.
